

AUTOMATIC WELD SIZE WELD GAUGE CAT # 6

USAGE

For welding measurements

MATERIAL

Stainless Steel

FEATURES

- A Gal Gage Co. product
- Made in USA
- Efficient for welding and quality control
- Long usage life, rust and corrosion resistant and extremely durable as well as being light weight
- Easy reading scale
- Available in either inch or metric

MEASUREMENT FUNCTIONS

- Check the throat of the fillet welds
- Check Reinforcement
- Determine the leg size of the fillet welds
- To check the permissible tolerance of convexity with the new, improved auto weld size gauge you can meet specification for butt and fillet type welds.
- Redesigned gauge is pocket size, easy to use and has thumb screw adjustable replacing old, hard to operate rivet.
- Automatically shown convexity and concavity sizes has been predetermined in accordance with AWS D1.1 Paragraph 3.6.

PRICE

45 USD (VAT and Shipment cost will be added)
